NOTES ON DATA AND THE NJSDC/BIDC

The 1990 Census counts presented here are based on the PL94-171 (reapportionment/redistricting) data released on January 24, 1991. They are subject to possible corrections for overcount or undercount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The NJSDC/BIDC

This report was prepared by the New Jersey State Data Center/Business and Industry Data Center (NJSDC/BIDC). The NJSDC is a cooperative project of the State of New Jersey and the U.S. Bureau of the Census. Serving data users in the public, private, and academic sectors, the NJSDC has three main objectives:

- to expand access to and use of census and other statistics
- to provide technical assistance and analytical support in the use of these statistics
- to provide user training on timely, census-related topics.

The New Jersey BIDC is an expansion of the SDC program designed to meet the growing data needs of the economic development community.

The NJSDC/BIDC consists of a network of over 100 state, county, regional, and local agencies. The lead agency is housed within the Division of Labor Market and Demographic Research, New Jersey Department of Labor. For a complete list of the NJSDC contacts, write to: New Jersey State Data Center, New Jersey Department of Labor, CN 388, Trenton, New Jersey 08625-0388.

A variety of statistical reports from State and Federal agencies may be accessed through the NJSDC/BIDC network. Most statistics are from the U.S. Bureau of the Census' regular and special censuses and surveys. The NJSDC will publish New Jersey data from the 1990 Census of population and housing when they are available on a flow basis. Data from the U.S. Bureau of Labor Statistics, Bureau of Economic Analysis and the State and sub-state demographic and economic data prepared/compiled by the New Jersey Department of Labor are also available through the NJSDC/BIDC.

These data are made available in either printed reports, on computer tapes, diskettes, microfiche, and/or through an electronic bulletin board. NJSDC Electronic Bulletin Board (NJSDC EBB) users have access to up-to-date publicly available data for New Jersey in an electronic format. For more information on the NJSDC EBB, contact: New Jersey State Data Center, New Jersey Department of Labor, CN 388, Trenton, NJ 08625-0388.

A quarterly NJSDC/BIDC newsletter (*Garden State Data News*) contains information on data releases (including a brief summary of the data), user services, training workshops, conferences, and other relevant items.

The Report

This report presents total population and housing units, land areas, population by Hispanic origin and race (white; black; American Indian, Eskimo, or Aleut; Asian or Pacific Islander; other races) for New Jersey counties and municipalities based on the 1990 Census. Persons 18 years old and over in each racial group and population density of each county and municipality are also included.

In addition to the printed report, these data are also available through the NJSDC EBB for subscribers (see the NJSDC/BIDC description), and on diskette for a fee upon request.

PL94-171 Data

The objective of the PL94-171 data is to meet the requirements of Public Law 94-171. This law, enacted in 1975, requires the U.S. Bureau of the Census to provide redistricting data in a geographic format requested by state governments. It specifies that within a year following Census Day (by April 1, 1991), the U.S. Bureau of the Census must send to the governor and the legislature of each state the population data they will need to redraw districts for their state legislatures.

To meet the legal requirement, the U.S. Bureau of the Census established a voluntary program to allow states to receive data for voting districts (e.g., election precincts, city wards) in addition to standard census geographic areas such as counties, cities, census tracts, and blocks.

The 1990 Census PL94-171 files contain a count of all persons and all housing units in specified geographic areas. They also provide a race count (five race categories) and a count of all persons of Hispanic origin and persons 18 years old and over of Hispanic origin. In addition, data are provided for all persons not of Hispanic origin and persons 18 years old and over not of Hispanic origin by race (five race categories).

The PL94-171 data for all geographic areas are available for review at the State and Newark Public Libraries. The county affiliates of the NJSDC have all the PL94-171 data for all of their respective geographic areas. (For a list of the county affiliates, contact: New Jersey State Data Center, New Jersey Department of Labor, CN 388, Trenton, NJ 08625-0388.)

Data Definitions

Race - *The concept of race as used by the U.S. Bureau of the Census reflects self-identification*; it does not denote any clear-cut scientific definition of biological stock. The data for race represent self-classification by people according to the race with which they most closely identify. Furthermore, it is recognized that the categories of the race item include both racial and national origin or socio-cultural groups. The racial categories used in this report are as follows:

White - Includes persons who indicated their race as "White" or reported entries such as Canadian, German, Italian, Lebanese, Near Easterner, Arab, or Polish.

Black - Includes persons who indicated their race as "Black or Negro" or reported entries such as African American, Afro-American, Black Puerto Rican, Jamaican, Nigerian, West Indian, or Haitian.

American Indian, Eskimo, or Aleut - "*American Indian*" includes persons who indicated their race as "American Indian," entered the name of an Indian tribe, or reported such entries as Canadian Indian, French-American Indian, or Spanish-American Indian. "*Eskimo*" includes persons who indicated their race as "Eskimo" or reported entries such as Arctic Slope, Inupiat, and Yupik. "*Aleut*" includes persons who indicated their race as "Aleut" or reported entries such as Alutiiq, Egegik, and Pribiliovian.

Asian or Pacific Islander - "*Asian*" includes Chinese, Filipino, Japanese, Asian Indian, Korean, Vietnamese, Cambodian, Hmong, Laotian, Thai, and "other Asian". "*Pacific Islander*" includes persons who indicated their race as Hawaiian, Samoan, Guamanian, or one of the Pacific Islander cultural groups of Polynesian, Micronesian, or Melanesian.

Other Race - Includes all other persons not included in the "White," "Black," "American Indian, Eskimo, or Aleut," and the "Asian or Pacific Islander" race categories described above. Persons reporting in the "Other race" category and providing write-in entries such as multiracial, multiethnic, mixed, interracial, We-sort, or a Spanish/Hispanic origin group (Such as Mexican, Cuban, or Puerto Rican) are included here.

Hispanic Origin - Persons of Hispanic origin are those who classified themselves in one of the specific Hispanic origin categories listed on the questionnaire--"Mexican," "Puerto Rican," or "Cuban"--as well as those who indicated that they were of "other Spanish/Hispanic" origin. Persons of "Other Spanish/Hispanic" origin are those whose origins are from Spain, the Spanish-speaking countries of Central or South America, or the Dominican Republic, or they are persons of Hispanic origin identifying themselves generally as Spanish, Spanish-American, Hispanic, Hispano, Latino, and so on. Origin can be viewed as the ancestry, nationality group, lineage, or country of birth of the person or the person's parents or ancestors before their arrival in the United States. ***Persons of Hispanic origin may be of any race.***

Housing Unit - A house, apartment, trailer/mobile home, group of rooms, or single room that is occupied as a separate living quarters or, if vacant, intended for occupancy as a separate, habitable living quarter. Separate housing units are those in which occupants live and eat separately from any other person in the building and has direct access from outside the building or through a common hall.

Population Density

New Jersey Municipalities: 1990

Persons/Sq. Mi.

1 Dot = 100 persons/sq. mi.

Note: Population Density for the State is 1042.24 persons per square mile
